

Re-mixing Unit Type N 1,5 E

The perfect solution for homogeneous mixtures

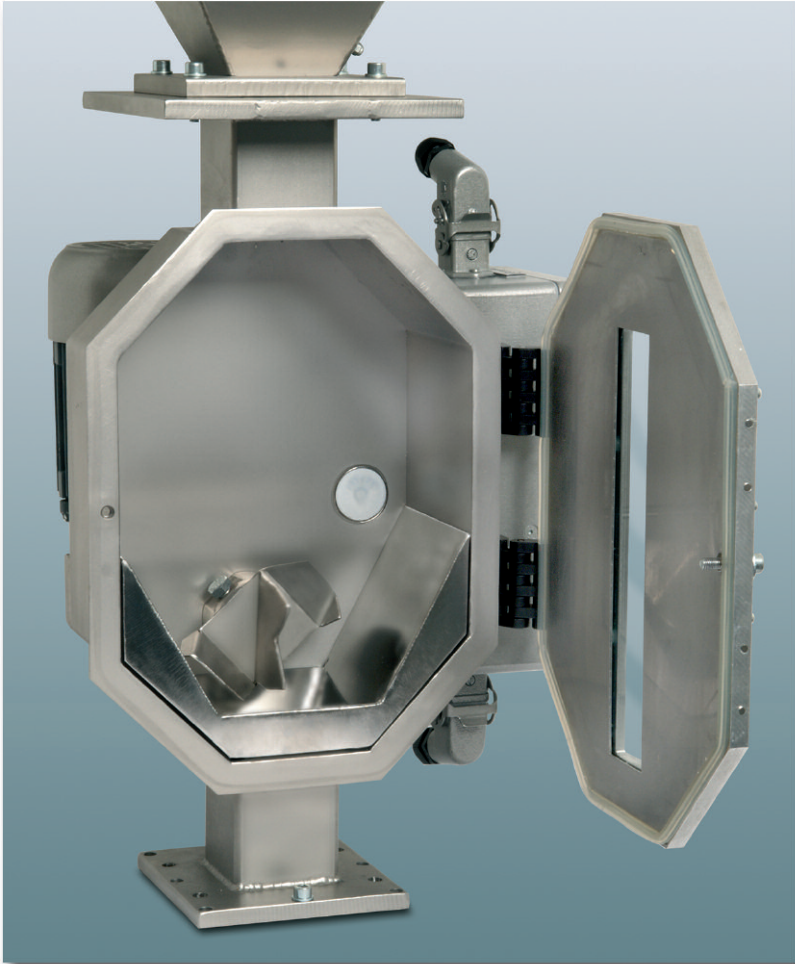

Quality optimization ■ Increased productivity ■ Time-saving solution

Characteristics:

- ▶ Optimal blending of several components
- ▶ Variable homogenizing time
- ▶ Constant process parameters
- ▶ High-grade steel mixing chamber
- ▶ Optimized supply of components
- ▶ Easy and fast cleaning when changing material
- ▶ Integrated level control
- ▶ No segregation of mixtures

The Component System

Re-mixing Unit N 1,5 E

Technical specifications:

Width:	350 mm
Height:	450 mm
Depth:	300 mm
Consumption:	max. 90 W/h
Power requirement:	230 VAC 50 Hz. ± 10 %

Large opening for cleaning

Model	Dimensions (mm)			Max. shot weight (g)	Filling volume (l)
	Width	Height	Depth		
N 0,5	170	170	200	150	0,5
N 1,5 E	350	450	300	500	1,5
N 3 E	350	450	600	1000	3
N 6	250	350	570	2000	6
