

Tempering drying oven TS 100 5B

Quality optimization ■ Space-saving design ■ Time-saving solution

Characteristics:

- ▶ Customized conducting
- ▶ Hot-air and dehumidifying dryer
- ▶ Temperature range 60 - 200 °C
- ▶ Accuracy: +0 - 4 K in 1 m³ drying chamber
- ▶ Temperature profile is logged
- ▶ Accredited controller
- ▶ Interface to the intranet
- ▶ Heat recovery by heat exchanger

The Component System

Other Characteristics:

- ▶ Temperature- and control-test port for the dry material external connectable
- ▶ Individual designed interior
- ▶ Economic heating-controller: dependent to the filling-ratio heating blocks can be switched off

- ▶ Extensible push trays with fixed stop
- ▶ Completely made of stainless steel
- ▶ Constant temperature allocation without inner fan
